

BIKE COURSE

Cyclists are going in both directions on most of the bike course, and can be moving very fast.

These roads are closed in both directions during the bike portion of the event from 8:30 AM to about 10:00 AM. Roads will begin to reopen as the last cyclist passes.

- Park Avenue
- Clarke's Beach Road
- Brook Avenue

There is no access to the roads above from:

- Maple Avenue
- Greenwood Avenue
- Motion Avenue
- Dawe's Road
- Snow's Avenue

CLARKE'S BEACH TRIATHLON

**Sunday, August 23
8:30 AM - 10:30 AM**

ROAD CLOSURE INFORMATION

TriathlonNL understands the inconvenience our event imposes and is appreciative of the town and residents of Clarke's Beach for allowing us to use your roads.

The safety of participants and residents during our events is of the highest importance. We hope that by publishing these details you will be able to plan around these road closures and minimize the disruption of your usual activities.

TRIATHLONNL

RUN COURSE

Runners are going in both directions on Park Avenue, the lower part of Hill Avenue, and part of Shaw's Lane. Wood Path is very narrow and twisty.

Roads will close or be restricted during the run portion of the event as follows:

8:30 AM - 10:30 AM

- Park Avenue
- Clarke's Beach Road

9:15 AM - 10:30 AM

- Hill Avenue
- Shaw's Lane
- Wood Path
- Glam Road
- Meadow Lane

Traffic Lane for Hill, Meadow, & Glam

Traffic on the upper part of Hill Avenue, Meadow Lane, and Glam Road can move through the Run Course using the vehicle lane which is separated from the runners using cones. This lane will be too narrow for two-way traffic, so motorists will need to move slowly and be courteous to others.

There is no access to Hill Avenue from Whispering Winds or Dawe's Crescent between 9:15 AM and 10:30 AM.

Boyd Avenue may enter the traffic lane on Glam Road using caution when crossing the Runner's Lane.

- Emergency vehicles will always be permitted access during our event.
- Please consider adjusting your schedule to work around the road closures, or parking your vehicle in a place that is not affected by the closures.
- As cyclists and runners clear each section of the roads, they will reopen to normal traffic. It is likely the closures will end sooner than the posted times.
